

Multifunction / Min / Handy

Dual LCD digital displays showing precise temperature

Airflow adjustment knob, quick and convenient

Safety design, built-in soldering iron interface, no electricity.

Fixed and anti-burn soldering iron handle

Hot air gun, lift to start, lift to standby

Extremely low noise and space saving.

Temperature correction and C / F temperature mode conversion

Have temperature correction function

Hot air gun

Working voltage: AC220-240V or AC100-127V

Frequency: 50Hz / 60Hz

Output power: 750W

Temperature range: 100 ° C ~ 480 ° C

Temperature stability: ± 1 °C

Air flow: 120l / min (max)

Soldering iron

Working voltage: AC220-240V or AC100-127V

Output power: 60W

Frequency: 50Hz / 60Hz

Temperature range: 200 ° C-480 ° C

Temperature Stability: ± 1 ° C

Soldering iron: ESD design

Heater Material: Ceramic

Before selling, please note
