

1. Features cool air/hot air conversion function.

2. No air protection function

Specifications

Model number: 959D I

Rated voltage range: 220V~240V/AC,50Hz

Rated power: 700W

Main unit dimensions: L170 × W 95 × H130mm ±5mm

Operating ambient temperature: 0~40°C/32°F~104°F

Display: LED display

Temperature range: 100°C~480°C/ 212 °F~896°F

Air delivery: Brushless motor with smooth air delivery

Air volume: ≤120L/min

Applicable range:

It is suitable for desoldering & soldering operations on a broad range of components. E.g.,

SOIC, CHIP, QFP, PLCC, BGA, SMD, and more. The unit is especially suited for desoldering operations on in-line sockets.

It can be used for heat shrinking, drying, paint removal, conformal coating removal, defrosting, pre-heating, glue soldering, and more.
