

## Features:

Useful in a wide variety of applications including impedance matching and level control.

With different attenuation values of fixed attenuator to be chosen from. High quality, rugged construction.

Suitable for microwave equipment, electronic equipment or communication systems. The use of features frequency bandwidth, low standing power, stable performance.

It can promote your work efficiently.

Coaxial Fixed Attenuator ONLY, other accessories in the picture is not included.

## Specification:

Color:

Material: Stainless Steel

Power: 2W

Frequency DC-6GHz

Impedance: 50Ω

Standing-wave ratio (SWR): ≤1.20

Connector Type: SMA-J ~ SMA-K

Operating Temperature: -20°C~115°C

Attenuation: 40DB/30DB/20DB/10DB/6DB/3DB

Attenuation + 0.5dB 30+/-0.8dB; 40-50dB+/-1.5dB; 60dB+/-1.8dB

Size: app.25.6x9.1mm/1x0.36in(HxD)

Quantity: 1 Pc
