

Overload Switch

SPECIFICATION:

Rating: 1.5A ~ 20A

Input Power: 125/250 V AC / 32V DC

Dielectric Strength: 1,500Vac 1 minute

Interrupt Capacity: 125vac x 1000A C 250VAC X 200A.

Insulation Resistance: >100M ohms

Reset : Manual Push Reset

Contact Endurance:125Vac x 150% of rated current >-500 Cycles

Calibration (at 25°C)

25 ~ 105 degree C of rate current : Hold, No-Trip

25 degree C -Between 101% ~ 134% : May Trip or not Trip

25 degree C -135% of Rated Current - Trip within 1 Hour

25 degree C -200% of Rated Current - Trip within 1 Minute.
